Testimonies

„I gauge the scariness of horror games using my patented Curl Chance™ system, which measures how likely I am to curl into a ball of whimpering fear when I play them. I rate the new trailer for Darkwood, an upcoming top-down survival horror title from indie group Acid Wizard Studio, a “Mommy” out of 10 based on the inky shadows and surreal sense of unease.”

Omri Petite **PC GAMER**

„It's been SLENDER pickings in the survival horror genre recently but Darkwood has my fear-glands tingling and, disturbingly, salivating. My internal organs are swimming in terror-juice.”
