A new perspective on survival horror.

Time: 16:51

Scavenge and explore a rich, ever-changing free-roam world by day, then hunker down in your hideout and **pray for the morning light.**

A pleasant warmth is emanating from the oven. I can sense a strange, yet familiar scent.

It's the smell of the "protective substance", which gives me relative safety after dark. The vapors rising from the huge cauldron are distributed all over the house via long pipes.

As long as I remain inside my hideout, I have a chance of surviving the night.

Examine the oven
Look at the weird bottle
Look inside the pot

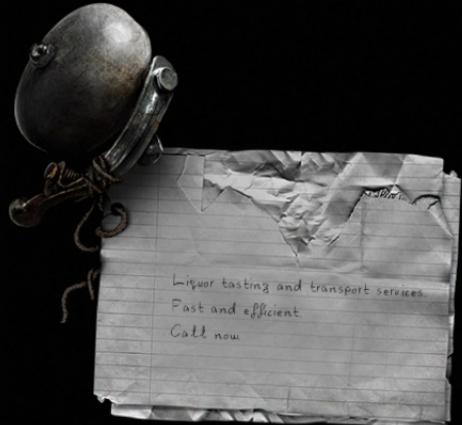

Greet your new family...

Trust **NO** one.

CHALLENGING GAMEPLAY

No hand holding or linear paths.

Think, learn and adapt - if you will behave recklessly or do not prepare for the night, you will not survive.

CHOICES & CONSEQUENCES

Each choice you make is permanent, and will have impact on you, or Darkwood's inhabitants. Every time you play, you will see a different story unfold.

SATISFYING EXPLORATION

A breathing, procedurally generated world for you to explore. Each visit to Darkwood is unique, as all locations and events are randomized.

PERKS AND ABILITIES

Improve your character with skills that will give you advantage over your enemies.

CRAFTING

A flexible crafting system which lets you experiment with loot to: create items, build barricades or traps, and improve your gear with addons.

TWISTED ATMOSPHERE

You will start to question your sanity, as the line between reality and nightmarish fantasies will begin to blur.

„I gauge the scariness of horror games using my patented Curl Chance™ system, which measures how likely I am to curl into a ball of whimpering fear when I play them. I rate the new trailer for Darkwood, an upcoming top-down survival horror title from indie group Acid Wizard Studio, a “Mommy” out of 10 based on the inky shadows and surreal sense of unease.”

Omri Petite **PC GAMER**

„It's been SLENDER pickings in the survival horror genre recently but Darkwood has my fear-glands tingling and, disturbingly, salivating. My internal organs are swimming in terror-juice.”

Adam Smith

„Darkwood is a promising top-down horror roguelike that has cult classic written all over it”

Jeffrey Matulef **EUROGAMER**

„The fear of the unknown is powerful. Darkwood takes that idea to heart”

Patricia Hernandez

„Holy shitfu*k, this game looks amazeballs”
